

Mean Cohort Score Change: Cycle 2 vs. Cycle 1

Average change across matched birth-decade cohorts within each country.
Negative = cohort scored lower in Cycle 2 (2023) than in Cycle 1 (2012/14).

Mean cohort score change (cy2 – cy1)

Source: PIAAC cy1 & cy2 PUF. Average across all matched birth decades per country.
PV+BRR estimation, SPFWT0 weights. Same birth decade is ~9–11 years older in cy2.
